

(SSPE) SLIDING STACKING PERPENDICULAR

Sliding Stacking Perpendicular features the ability to stack and store numerous panels perpendicular from the track and along a wall. Panels slide straight or can turn a corner. This system is perfect for making guest bedrooms or conference areas. Its single plane sliding track is also ideal for tight spaces where multiple tracks or folding doors wouldn't work. Available with a pivot door option for frequent access to the space.

Standard opening widths

System	Opening Widths *
SSPE1/PV1	62-5/8", 72-5/8", 82-5/8", 92-5/8"
SSPE2/PV1	93-3/4", 108-3/4", 123-3/4", 138-3/4"
SSPE3/PV1	124-7/8", 144-7/8", 164-7/8", 184-7/8"
SSPE4/PV1	156", 181", 206", 231"
SSPE5/PV1	187-1/8", 217-1/8", 247-1/8",

* Opening widths listed are from finished wall to finished wall.

Track	Opening Height *
60/H	82-7/8", 94-7/8", 106-7/8", 118-7/8"

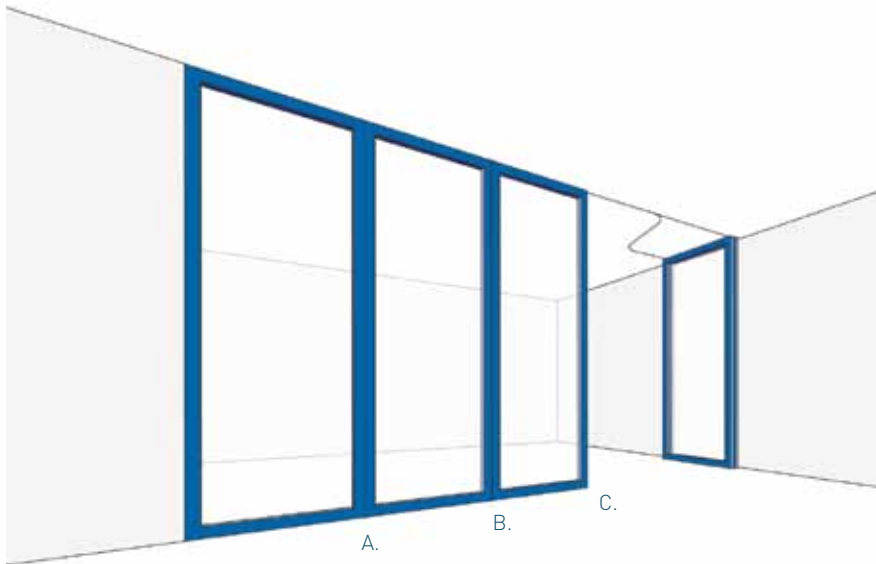

* Opening heights are from finished floor to top of leveled track.

Panel models

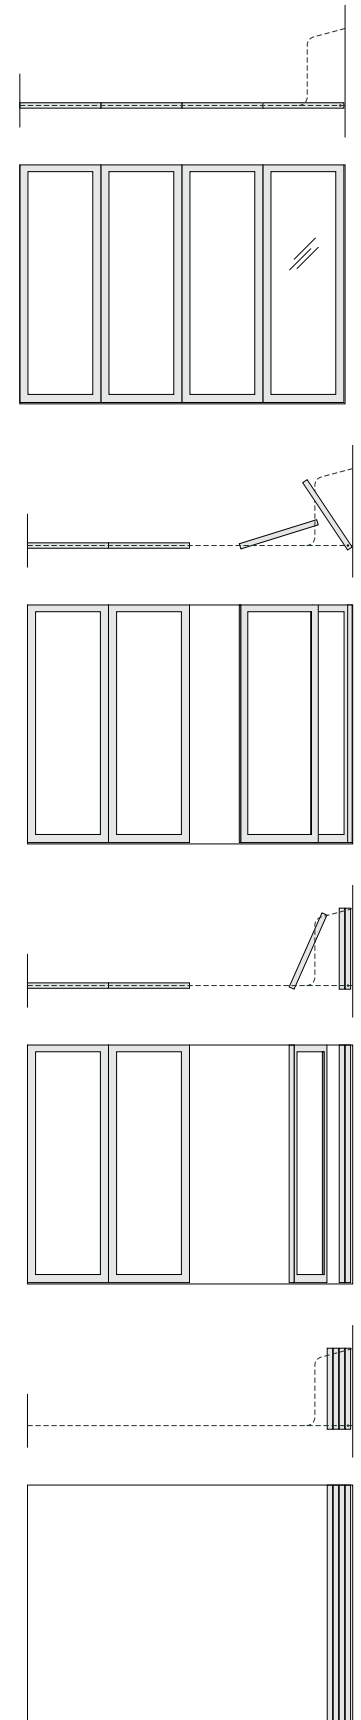

225, 175, 175F

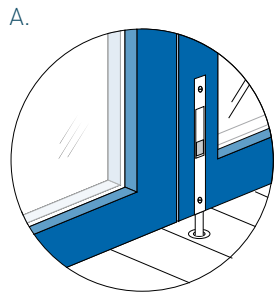

* Specify SSPE in any number of panels i.e. SSPE3/PV1, SSPE4/PV1 etc. & SSPE4, SSPE5, SSPE6 etc.

Operation Overview

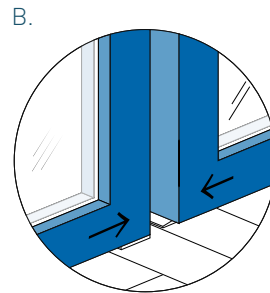

Features

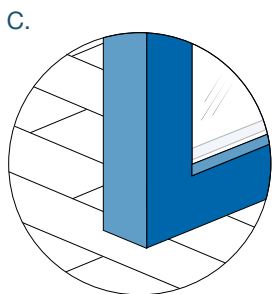

Stabilizing flush bolts

Used to anchor the system in place. Flush bolts come paired with a discreet spring loaded dust proof strike.

Alignment Plates

Aligns one panel to the next using a nesting design.

No floor track required

Overhead tracks and the floor guide allow the door to slide across the opening easily and without the need for floor tracks.
